

# Chapter 7 Note Sheet - Separate Artifacts from Evidence

## Cold Case Christianity for Kids

What did Jason find on the skateboard?

\_\_\_\_\_

Why isn't the paint "evidence" related to the owner of the skateboard?

\_\_\_\_\_

According to Detective Jeffries, all crime scenes contain both \_\_\_\_\_ and \_\_\_\_\_.

We don't have the \_\_\_\_\_ of the New Testament Gospels.

Det. Jeffries says, "Scribes made the copies of the original gospels and sometimes they mistakenly \_\_\_\_\_ a letter or a word. Some scribes even added a word or set of words. They weren't necessarily trying to \_\_\_\_\_ the message. Usually they were just trying to make something easier to \_\_\_\_\_."

Look at the following three incomplete and varied statements and try to figure out what the original must have said (write it on the fourth line):

If Ja on is a go&d defective, he will sta !

If Jaso os a good detecti e, he ill s and!

If ason s a good betective, he wil tand!

\_\_\_\_\_

Det. Jeffries says, "You were able to figure out what the original said, even though you had two inaccurate copies. You \_\_\_\_\_ the copies and were able to separate the \_\_\_\_\_ - the stuff that wasn't part of the original statement, from the \_\_\_\_\_, the stuff that was part of the original statement."

### A "Tool" For Your Detective Bag

Don't be surprised to find \_\_\_\_\_ in our Bible. Most Bibles identify variations in the ancient copies by putting a footnote at the side or bottom of the page. Be a good \_\_\_\_\_ and focus on the evidence instead of the \_\_\_\_\_. You can trust what your Bible says about Jesus.
